Education History

- ❖ Self-taught Front End developer
Since March 8 2021
- ❖ Bachelor's in Information Technology
July 2017 – Feb 2020

Personal Summary

I am a Junior Frontend Web Developer with a proven ability to deliver quality results while collaborating in rapidly changing work environments and team compositions. Worked through 1000+ hours of university structure wherein I learned HTML CSS, SCSS and JavaScript. Before transitioning to a focus on coding, I provided quality customer service at a tourism company as a social manager concerned with tourists (100+ clients per month) feedback and arrival preparations in hand with onboarding team.

I am now eager to obtain a challenging position at a prestigious company that will expand my learning and builds upon my skills as a developer.

My Experience

Orli Construction Company | Front End Developer | Mar 2020 – Jul 2021

- Developed the Orli Construction Company website from scratch and these increased online clients quote request by 17%
- Detected errors in software that decreases the loading and browsing performance by 23%
- Modified HTML, JavaScript and CSS web pages to resolve the problem in a 1-man team
- Managed to improve software's performance by 12% which resulted in 500+ leads in 2020

Social Media Manager | Feve Hotels Entebbe Aug 2019 – Mar 2020

Worked with the onboarding team to help our incoming clients with swift and professional communication throughout their travels.

Was responsible for the feedback and on clients' questions and review through Email, Booking App and Facebook.

Worked in a team of 16 people, to help at least 100 tourist per month.
